After this examination, you will receive a letter from our university physician, stating you are in good health according to our requirements and able to start your training. Please bring this letter prior to the start of your program to our Student exchange coordinator, Eliana Lemos.</p> <p>Accepted students have to make sure they have all needed vaccinations prior to arrival in Aachen! Otherwise they might have to wait (according to the vaccination schedule) and postpone the start of the clerkship/study program.</p> <p>Students will need their student registration number (if enrolled at the RWTH Aachen University) or a certificate for the examination (short term staying period) and following records (records shouldn't be older than 3 months):</p> <p>Certificate about 3 vaccinations against Hepatitis B Hepatitis B Titer (Anti HBs-Antibodies) more than 100 Anti HBc-Antibodies Hepatitis C (HCV-Antibodies) negative Hemogram, Liver enzymes (SGOT, SGPT, GGT), Blood glucose, ESR, Urinalysis</p> <p>Tuberculosis: Tuberculin Skin Test, if it is positive, you need to show an chest-x-ray or a negative Interferon-Gamma release assay (IGRA)</p> <p>Address Hochschularzt: Roermonder Straße 7 52072 Aachen</p> <p>Examination hours (no appointment needed): Monday - Friday: 8 am - 12 am</p> <p>General opening hours: Monday - Thursday: 7:30 am – – 4 pm Friday: 7:30 am - 3:50 pm</p> <p>Note: if results for time-consuming tests are missing, like TB test, it will take more working days to have these results. Please bear in mind, the more complete your health records are, the sooner you will be allowed to start your practical training. If you have all the results listed above, you might even get the permission the same day.</p> <p>As you can see, you need a few working days to complete all these formalities. If you look forward to starting your program on time, make sure to arrive in Aachen at least 3-4 working days in advance!</p>

Erasmus Code	University
N -BERGEN01	<p>Bergen University College is a state educational and research institution. With 7000 students and 750 academic and administrative staff, Bergen University College is one of the largest university colleges in Norway. Bergen University College has three faculties: the Faculty of Education, the Faculty of Engineering, and the Faculty of Health and Social Sciences. We offer undergraduate programmes and graduate programmes in addition to a range of further education programmes. Some of the study programmes, such as the Bachelor Programme in Subsea Technology and the Master Programme in Evidence Based Practice, are unique in Norway.</p> <p>The three faculties share a common commitment to excellent teaching, research and knowledge transfer, and give students access to academics who are experts in their fields.</p>

Erasmus Code	Local University System
N -BERGEN01	<p>Bergen University College is divided into 3 faculties and a central administration. The International Office is a central unit in charge of all mobilities to and from the university college. Each Faculty has several Departments, and each Department has an academic international coordinator responsible for the academic content of the mobilities.</p> <p>The bachelor degrees consists of 6 semesters (3 years) and the master degrees of 4 semesters (2) years, in accordance to the Bologna process.</p>

A very good performance. The candidate demonstrates sound judgement and a very good degree of independent thinking.</p> <p>C: Good. A good performance in most areas. The candidate demonstrates a reasonable degree of judgement and independent thinking in the most important areas.</p> <p>D: Satisfactory. A satisfactory performance, but with significant shortcomings. The candidate demonstrates a limited degree of judgement and independent thinking.</p> <p>E: Sufficient. A performance that meets the minimum criteria, but no more. The candidate demonstrates a very limited degree of judgement and independent thinking.</p> <p>F: Fail. A performance that does not meet the minimum academic criteria. The candidate demonstrates an absence of both judgement and independent thinking.</p> <p>In some cases the grading pass/fail is used instead of the grading scale A-F.</p> <p>The grading system in Norway is not, though it might appear so, based on the ECTS grade system where a fixed percentage of the student population will receive each grade. The Norwegian grading system is quality based, where the quality of an performance, exam or assignment will decide the grade. The grading system can therefore not be directly translated into other European grading systems.</p>

Erasmus Code	Local University System
S -VAXJO03	<p>The Swedish Educational system</p> <p>Linnaeus University is one of about 40 universities and university colleges in Sweden. At the national level, the National Agency for Higher Education is responsible for higher education and research. For further information please see www.hsv.se.</p> <p>Programmes and courses At most Swedish universities, students can choose between applying for study programmes, 30-credit full-semester courses or to make a combined application for several freestanding single subject courses. Note that in order to get residence permit, all international students from outside the EU / EEA or Switzerland are required to be full-time students (i.e. admitted to at least 30 credits per semester) during their stay at Linnaeus University.</p> <p>The credit system 1.5 credits represent one week of completed full-time studies. They are more or less equal to 1.5 ECTS credits and approximately 0.75 US semester credits. 60 credits represent the workload of one year of full-time studies. The duration and extent of programmes and courses are expressed through the credit system. One semester of full-time studies corresponds to 30 credits or 30 ECTS / approximately 15 US semester credits. Individual courses are generally 7.5 credits (five-week courses in a single subject area) and run consecutively, not simultaneously. Full-time studies requires 40 hours of studies (including class time and own studies) per week.</p> <p>Examination All courses include written and / or oral examinations. As a rule, there are no final exams covering the entire semester's course work (i.e. grouping the modules together when enrolled in a 30-credit course) or covering an entire study programme. There are two pass grades awarded in the Swedish university system: "Pass" – "G" and "Pass with Distinction" – "VG". If you fail an examination, it may be possible to re-sit the examination later in the semester. The teacher will inform you of the re-examination date. Independent projects and short papers are other examination forms required in some fields of study. The work you have carried out is presented in a seminar where other students and the teacher critically evaluate your work. The grading system is similar to that of an examination. Please note that if you want your course to be graded according to the ECTS grading system, you need to talk to the person responsible for the course before the course starts.</p> <p>Academic misconduct Academic misconduct (i.e. using unauthorised tools in exams, using "crib sheets", or plagiarism) is strictly forbidden. If a student, whether Swedish or international, is suspected of academic misconduct, an investigation is carried out. The vice-chancellor decides, after having questioned the student, whether the case is to:</p>

S -VAXJO03	<p>Insurance It is important that you buy a sufficient health (including dental care) and travel insurance in your home country. You will not be able to obtain an insurance in Sweden.</p> <p>Health insurance Those who are Swedish citizens or have residency in Sweden are insured in accordance with social insurance laws and are entitled to medical benefits. You are entitled to such benefits only if you are staying in Sweden for at least one year.</p> <p>EU/EEA citizens EU/EEA citizens and citizens from countries which have established reciprocal health insurance agreements with Sweden are entitled to access the same medical benefits as Swedish citizens. In this case, you are not required to be a resident. To be eligible as an EU/EEA citizen, you must be registered at a social insurance office in your home country and bring your European Health Insurance Card.</p> <p>Non-EU/EEA citizens If you are not an EU/EEA citizen, it is vital that you buy a private health insurance before leaving for Sweden. Swedish insurance offices are not able to offer foreign citizens any kind of private health insurance.</p> <p>Medical check-up As you will be away from your home country for several months, it is recommended that you have a medical check-up before leaving. If you use any medication, make sure that the prescriptions you will need during your stay are valid long enough so you can rely on medication that you are familiar with. Before your departure you should check with the Swedish Medical Products Agency if there are any restrictions on bringing your medicine to Sweden. Please see www.lakemedelsverket.se/english for more information.</p> <p>Vaccinations There are generally no vaccination requirements when entering Sweden. Temporary regulations may sometimes apply to travellers from specific countries.</p>
