

Dearest Students,

We kindly inform you that the first exam session for the ADDITIONAL LEARNING REQUIREMENTS is planned on **Friday February 21th 2025 at 14:30 CET**.

Please find below and in attachment further information on how to take the exam. Don't hesitate to contact this email address, in case you need further clarifications.

Please read carefully further details about the Additional Learning Requirement Tests for the Academic Year 2024/2025, divided in the following groups:

- General Knowledge and Logical Thinking (10 questions in 30 minutes) - MEQ0093143
- Physics and Mathematics (10 questions in 30 minutes) - MEQ0093142

The Additional Learning Requirements will be fulfilled with a passing score of 60% (6/10 correct questions) for each subject group, with 1 point for correct answers and 0 points for wrong or blank answers.

The test will take place on Moodle Exams, here follows the direct link:
<https://esami.elearning.unipd.it/course/index.php?categoryid=1361>

Please make sure you access the link with your SSO and to have installed on your PC or laptop more than one browser to ensure Moodle functioning. Updated version of Google Chrome and Mozilla Firefox should suffice.

Once you have logged in to the Moodle space above, make sure to book all subjects for which you have to take the test. Booking procedures will be available through your Uniweb on exam sessions starting February 1st, 2025 and not later than February 19th, 2025. For example: if you have ALR for Chemistry and Biology, you have to book both Chemistry and Biology during that time frame. You can verify what subjects you may have to book referring to what has been uploaded on your booklet in Uniweb by the Students' Career Office.

The test will be available starting from February 21th 2025 at 14.30 CET. You are required to access the following Zoom meeting on your smartphone or another device (not on the laptop or PC you will use to complete the quiz on Moodle) with your SSO account at least 30 min before the beginning of the test.

Topic: Additional Learning Requirement 24/25

<https://unipd.zoom.us/s/84455503673>

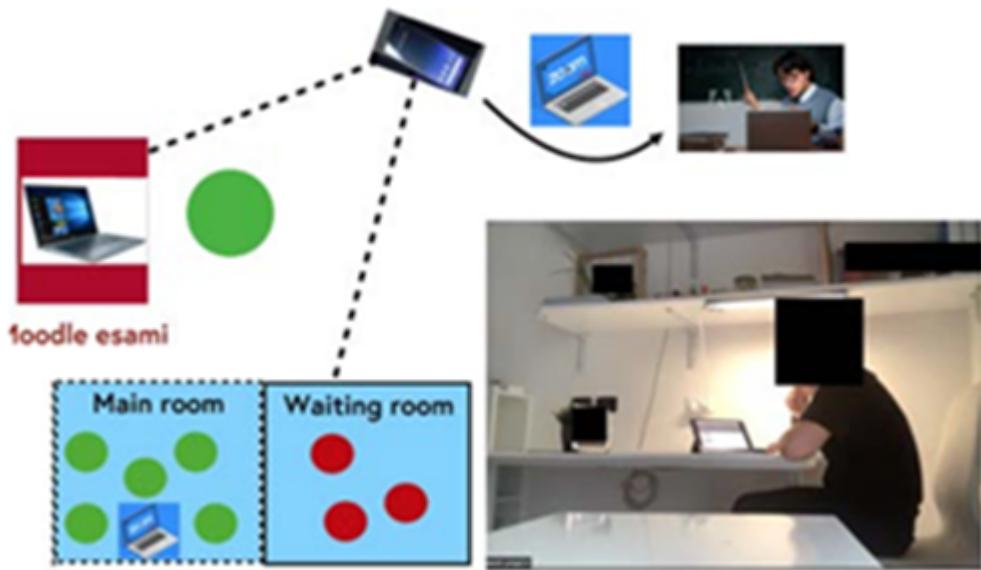

844 5550 3673

Students will be admitted from the Zoom waiting room, starting from 14:00 CET.

Students will be admitted one by one for identification. After being admitted by the host from the waiting room, students will show their ID.

For surveillance purposes, students must access the Zoom meeting using a device such as a smartphone or a tablet, ensuring enough battery is available during the whole test. Please access the Zoom meeting after login with your SSO. The smartphone webcam must show the student so that one can see the area around the student and the computer screen, like in the image below. A pen and a blank sheet of paper are allowed during the test.

You can also find these information on the Moodle page

Dear All,

in order to help you with your Additional Learning Requirements (you have to pass them before enrolling to the official exam session and not later than September 30th, 2025), the Medicine and Surgery Degree Course bought an online platform:

this platform will give you the possibility to get some exercises and prepare for the final exam.

In attachment I'll give each of you a personal code to enter the platform and start practicing. Check your matriculation number to see your personal code.

Here you have the instructions:

Go to the link http://www.edises.it/attivita/ofa_2024_pd_en/

Click on "Scarica Ebook"

Insert your personal code and click on "Continua"

Since you are a new user, you have to register at the website. If you already have an account on the website, you can use your credentials (email and password) to log in by clicking on "Accedi".

As soon as you get the login, you'll be redirected to the page "I miei ebook", where you could download your ebook. Once you have clicked on "download" you'll be redirected on the e-book reader VitalSource. At this point you can choose between two options: 1. Register yourself to the reading platform → in this way you can download your text on your device (two mobile devices and two PC for each user) or 2. Select the "No, thanks. I'll skip this step" → By doing this you'll be able to only visualize your text online.

Once the ebook is open, you can easily navigate through the text using the menu in the upper-left side of the page.

Best regards,
